Farben Automatic Watering System

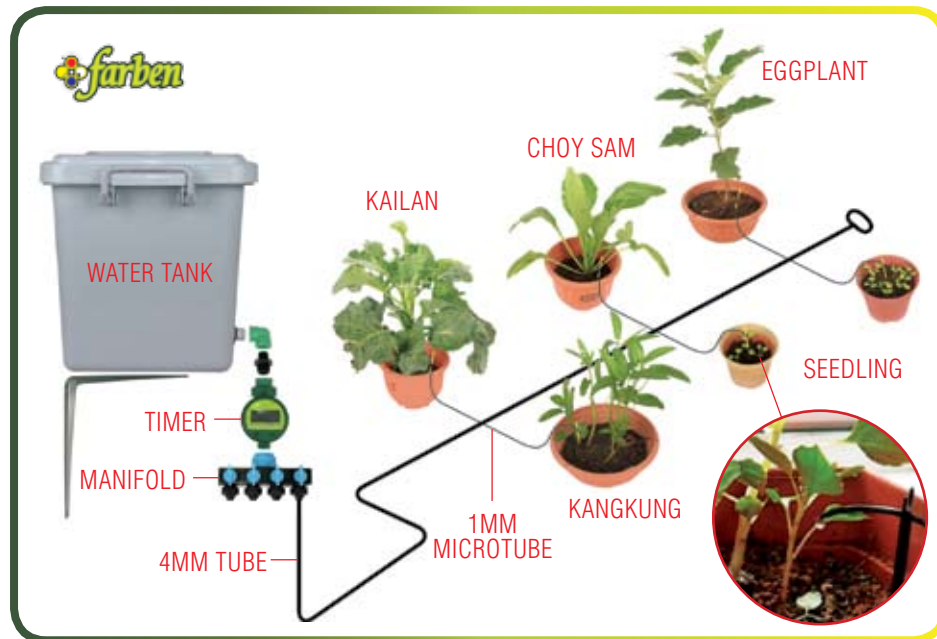

No.52, Jalan PJU1A/16, Taman Perindustrian Jaya, Ara Damansara, 46050 Petaling Jaya.
Tel: 03 7842 5990 / 03 7842 3990 / 012 302 0061 (Jimmy)

Watering done for you when you are at home or away on a holiday.

AUTOMATIC VEGETABLE GROWING FERTIGATION KIT

A scaled down version of the system for commercial vegetable production.
Delivers water + fertiliser to your plant **AUTOMATICALLY!**

Easy to use

- 1) All you need to do is to fill up the tank
- 2) Add a packet of fertilizer provided every time you refill your tank
- 3) Set the timer
- 4) ... Wait for your harvest

Unique features

- Grows vegetable in flower pots
- Use any ordinary well drained soil e.g. burnt soil.
- No need to clean up system after harvest
- No mosquito breeding
- No need to change your soil

Low running costs

Only 1 to 2 gram fertiliser per 23 litres water.
(Cost about RM 0.10)
... You get your vegetables almost for free!

Other use for the kit

- Can also use to grow organic vegetables.
- Automate watering of your potted indoor plants.
- Use for normal potted flowering plants.

Parts available for extension

- Extendable to
1) 60 pots - just add T joints & microtubes.
2) 240 pots - just add 1/2" hose, T joints & microtubes.

OTHER APPLICATIONS

Organic Vegetable

Put **SOLUBLE** organic fertiliser in the tank or use only clean water in the tank if fertiliser applied directly to soil.

Outdoor Garden

Connect the pot to the system using 1mm microtube or valve dripper (for big pots). Tubing can be buried if there is soil under the pot.

Indoor System

Install your tank on the cupboard or shelf. Run the 4 mm tube behind the cupboard. Hide the 4 mm tubes under the carpet. Connect the 1 mm tubes to the pots.

Watering can be so easy with Farben Automatic Watering System, you can now sit back and enjoy your beautiful landscape and garden. Visit www.farben.com.my
